CAREER OBJECTIVE

Dedicated and detail-oriented 3rd year B.Tech Computer Science & Engineering(Artificial Intelligence) student with strong interest in software development,artificial intelligence,and problem-solving.Seeking an oppprtunity to utilize my technical skills,creativity,and teamwork abilities in a dynamic organization while continuously learning and contributing to organizational success.

EDUCATION

Ashoka Women's Engineering College,
B.Tech in CSE(Artificial Intelligence)

2023 – 2027 | Kurnool
Percentage:83.79%

Deeksha Junior College,
TS Board of Intermediate(MPC)

2021 – 2023 | Hyderabad
Percentage:98.7%

Viswashanthi High School
Andhra Pradesh Board of Secondary Education

2019 – 2020 | Allagadda
Percentage:99%

SKILLS

Programming Languages: — C,C++,Java,Python(basics)

Database:MongoDB,SQL(basics)

Web Technologies: — HTML,CSS,JavaScript,React.js,Node.js(basics)

Core Skills: — Data Structures and Algorithms,Mathematics,Teamwork ,Problem Solving

Tools:Github,VS code

AI & ML: — Pandas,Numpy

TECHNICAL SKILLS

Programming skills

Proficient in programming languages such as C, C++, Python, and SQL with good understanding of data structures, algorithms, and object-oriented programming concepts.

Technologies

Experienced in building web interfaces using HTML,CSS,Javascript,and React.js.

Familiar with backend developement using Node.js.

Strong foundation in mathematics supporting AI and Machine Learning concepts.

PERSONALITY TRAITS

- Analytical thinking
- Problem-Solving skills
- Quick learning ability
- Creativity and Innovation
- Good Communication Skills
- Time Management
- Self-Motivated

PROJECTS

1)Email Spam Detection System

Developed an email spam detection model using machine learning techniques.

Applied preprocessing methods such as tokenization and stop-word removal.

Implemented Naive Bayes algorithm for classification.

Evaluated performance using accuracy,precision,recall and F1-score.

Github link:<https://github.com/sireeshaS56/Email-Spam-Classification>

2)Cafe Pre-Order System

Developing a web-based application that allows users to pre-order food,reducing waiting time.

Designing an interactive user interface using React.

Planning integration of backend and database for order management.

3)Timeseries-forecast model

Developed a Time Series Forecasting project using LSTM in Python.

Used TensorFlow, NumPy, Pandas, and Matplotlib for data processing, model training, and visualization.

Performed data normalization, sequence generation, prediction, and model evaluation using MSE and MAE.

Visualized actual vs predicted results and saved the trained model for future use.

Github link:<https://github.com/sireeshaS56/timeseries-forecast>

CERTIFICATES

Quantum Fundamentals Certificate

Amaravathi Quantum Valley,Qubitech and WISER(2025-2026)

Artificial Intelligence Fundamentals

IBM SkillsBuild(2025)

AI Skills Passport

EY and Microsoft

Smart Interviews Course Completion Certificate

Smart Interviews,Data Structures and Algorithms(2026)

NPTEL Online certification

English for Competitive Exams-Elite(2025)
